

# **Direct drive pumps**

A compact centrifugal pump with canned motor further covers a higher flow rate.

# Compact and lightweight with a seal-less structure

Choose the most suitable model from a wide selection.

The pumps with a canned motor offer compactness and light weight. Compared with conventional magnetic drive pumps, they require minimal space for installation. Select the best connection for your plumbing system from tube, R pipe and NPT pipe. Seal-less structure eliminates wear leakage and other problems involved with seal replacement.

#### Long life design

Use of a DC brushless motor eliminates concerns over brush abrasion, ensuring a service life comparable to an AC motor.

#### Safety voltage

The RD series power voltage is classified as safety voltage (50V or less), which allow the user to easily comply with international standards such as UL, CSA, CE and GS.

### DC power system

The DC power system overcomes installation limits for voltage and frequency of each area.

#### Flow rate adjustment

Flow rate can be adjusted by means of an external signal of 1-5VDC.

## **Built-in drive circuit**

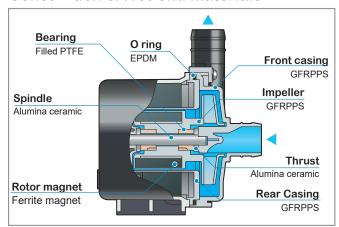

A drive circuit is fitted as standard inside the pump. Connect power to the pump and provide an external signal to start operation.

#### High temperature resistance

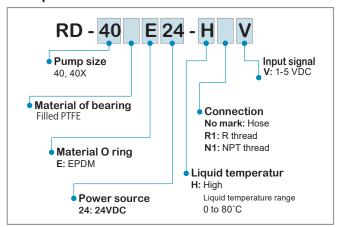

The pump can handle hot liquids up to 80°C.

### **Constuction & Wet-end materials**

# **Pump identification**

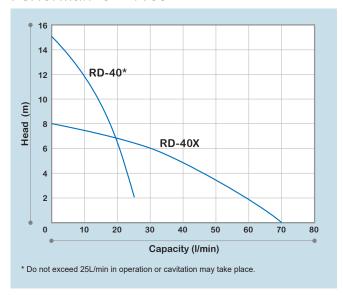

# **Specifications**

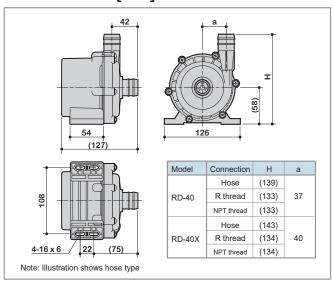

Model	Connection		Max. discharge	Max, head	Max. SG	Motor		
	IN	OUT	capacity	Max. Head	Wax. OO	Output	Power source	Mass
RD-40	ø 26 mm	ø 19 mm	25 l/min	15 m	1.0	85W	- 24VDC	1,5 Kg
	R1	R1/2						
	NPT1	NPT1/2						
RD-40X	ø 26 mm	ø 26 mm	- 70 l/min	8 m		72W		
	R1	R3/4						
	NPT1	NPT3/4						

- The data is collected from operation with clear water at room temperature.
- The maximum capacity is obtained based on the presumption that delivery head is at 0 m. The maximum head is obtained based on the presumption that discharge capacity is at 0 L/min.
- The maximum viscosity is 1mPas when the maximum specific gravity is 1.0.
- Operating condition Ambient temperature: 0 40°C, Liquid temperature: 0 80°C, Ambient humidity: 35 90%RH.
